INTERNATIONAL UNION OF OPERATING ENGINEERS

ASSESSMENT AND EVALUATION OF LEARNING

Your Guide to Becoming a Better Instructor

Want to know if your students are getting the point? Want to help every student become more successful?

IUOE National Training Fund's online course is designed for busy instructors.

- Brief, 10-minute topics make it easy to *fit learning into your day*
- Many topics contain downloadable resources you can use in your classroom
- A unique "course map" allows you to explore new topics when you want them

You'll learn practical techniques for:

- Creating assessments that provide
 real value for you and your students
- Using assessments to help students learn
- Using different kinds of assessments to measure knowledge and skills
- Evaluating courses and programs to improve teaching

Whether you're a brand-new instructor or you've been teaching for years, this course has answers for you.

Check with your local union for more information or to register for the course.
